Declaration of Conformity to Directive

European Union's POP Regulation (EU) 2019/1021

Under the **EU Regulation (EU) 2019/1021**, Feller GmbH has a duty to ensure no persistent organic pollutant or substance above the restricted and/or banned limit is in our products as it pertains to shipments of goods (i.e, chemical substances, preparations, articles (each, as defined in the POPs Regulation)).

The POPs Regulation prohibits EU suppliers and Manufacturers of Articles (including EU Article importers) from supplying products containing substances listed in Annex I. The EU has proposed adding perfluorooctanoic acid (PFOA), its salts and PFOA - related substances to Annex I.

Currently, these substances are regulated under the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Restriction List, also known as REACH Annex XVII, with an enforcement date of July 4 2022.

Feller GmbH products have been reviewed and determined, to the best of our Company's knowledge, based on engineering evaluation, testing and supplier declarations, to not contain any restricted or banned chemicals or substances above the regulated limits.
